Re: Homeless Court Navigator Position grant support

December 19, 2019

To whom it may concern:

The City of Merced has been actively seeking solutions to the challenges facing people experiencing homelessness. In the City, there are more than 500 people who are experiencing homelessness, including veterans, parents, senior citizens and juveniles.

The City has worked collaboratively with different agencies in the City and the County to find programs that assist people who are in the midst of a housing crisis. The City Council just purchased land for the construction of an affordable housing project that will include permanent supportive care units. We are active partners in the Continuum of Care and help fund programs for those experiencing homelessness.

The City has been working with the Merced County Superior Courts, the District Attorney, the Probation Office and the Public Defender to create a Homeless Court in Merced County to help people experiencing homelessness clear their records of minor criminal offenses. This would help eliminate financial obstacles and clean up their record for employment purposes.

To help achieve that goal, the City of Merced supports the application by the Workforce Development Board of Merced County to fund a Homeless Court Navigator position. The position would give support to the Homeless Court, providing coordinated services to the targeted client population. The Homeless Court Navigator would provide outreach services, an essential component to the Court's success.

The City of Merced is a strong supporter of the Homeless Court, and of the need for a Homeless Court Navigator position. We urge you to approve the grant and fund the position of Homeless Court Navigator.

Sincerely,

Hicker the Whigh

Michael W. Murphy, Mayor City of Merced

Concert Series Slated for Merced in 2020

By Elizabeth Arakelian UC Merced

A collaboration among the City of Merced, community members and the University of California Merced is bringing a little night music back to the Merced Open Air Theater.

Friday evening concerts will begin at the outdoor half-shell, in Applegate Park, starting in summer 2020.

Seeking a way to amplify the cultural scene in Merced, Kim Garner, UC Merced's new executive director of the arts, wrote a grant proposal for the Levitt Amp Concert Series, and then rallied university and community members to vote online to move the proposal into consideration. On Dec. 20, the Levitt Amp Concert Series Foundation announced Merced as one of the newest locations of its free concerts.

"We're always looking for ways to bring the campus community and city of Merced together, and there really is no better way to do that than through the arts," Garner said. "Winning the Levitt Amp Concert Series is the perfect first step toward broadening our arts reach, and I know our community will benefit greatly from this new initiative."

Levitt Amp is a matching grant program made possible through the Mortimer & Mimi Levitt Foundation, a nonprofit dedicated to reinvigorating public spaces through the performing arts. Levitt Amp allows cities to compete for \$25,000 in funding for outdoor concerts. Last year's winners included Berea, Kan., Carson City, Nev. and Ocala, Fla., among others.

Merced Mayor Mike Murphy is enthusiastic. "This concert series is exactly the type of thing we are looking to bring to Merced," he said. "The Merced Open Air Theater was once a vibrant space that doesn't have the kind of attention and audiences it once did. This concert series is a great way to bring the community out together for something we can all enjoy."

The theater opened in 1989. Once it is reinvigorated with live music, the hope is that the concert series will give residents a reason to come together, ultimately strengthening the fabric of the community through common interests.

An online survey and in-person questionnaire over the coming weeks will determine the kind of music the community would like to hear.

"We're so excited to get the community's feedback and start making these concerts a reality," Garner said. "Summer 2020 will be a fantastic time in Merced."
