Cíty of Merced, Calífornía Basíc Financial Statements for Físcal Year Ended June 30, 2020

#### The Mainzer Theatre, Merced California

The current Mainzer Theatre has a long history dating back to 1920, when the original Merced Theatre was built. A fire destroyed the Theatre in 1936 and was rebuilt in 1937 by The Golden State Theatre and Realty Corp. as the Strand Theatre. The Strand Theatre, an Art Deco style building, featured a stepped parapet, metal ribs, a marquee and brick. It opened in February 1938.

Golden State Theatre and Realty Corp. eventually merged with United Artists, who retained ownership of the Strand until the early 1960s. The name was changed to Cinema III and the auditorium was divided into three parts. It was used as a venue for a variety of performing arts.

In 1999, the Theatre changed ownership to Brenda Farley and Hans Mainz. The two renovated the Theatre and their efforts were recognized by the Art Deco Society of California, receiving an Art Deco Preservation Award in 2004.

Mainzer Theatre Merced, LLC acquired the site in 2015. They received approval from the City of Merced in 2016 to begin restoration of the Mainzer Theatre. Now considered one of Merced's pristine landmarks, the Mainzer Theatre is home to a state-of-the-art restaurant and bar, live performing arts stage and seating, a movie screen, and a variety of entertainment for all.

#### INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and Members of the City Council of the City of Merced
Merced, California

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Merced, California (City) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

To the Honorable Mayor and Members of the City Council of the City of Merced
Merced, California
Page 2

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of June 30, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, pension plan information, and OPEB information on pages 5-14, and 95-108 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The General Fund combining balance sheet and combining statement of revenues, expenditures, and changes in fund balance, and the University Capital Fund combining balance sheet and combining statement of revenues, expenses, and changes in fund balance are presented for purposes of additional analysis and are not a required part of the basic financial statements.

To the Honorable Mayor and Members of the City Council of the City of Merced
Merced, California
Page 3

The General Fund combining balance sheet and combining statement of revenues, expenditures, and changes in fund balance, and the University Capital Fund balance sheet and statement of revenues, expenses, and changes in fund balance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the general fund combining balance sheet and combining statement of revenues, expenditures, and changes in fund balance, and the University Capital Fund balance sheet and statement of revenues, expenses, and changes in fund balance are fairly stated in all material respects in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated March 9, 2021, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Badawi & Associates, CPAs Berkeley, California

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Merced (City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2020.

#### FINANCIAL HIGHLIGHTS

The City's net position as shown on the Government-Wide Statement of Activities increased by \$6.3 million. The governmental net position decreased by \$9.6 million and the business-type net position increased by \$15.9 million.

#### Government-wide:

- As shown on the Statement of Net Position, the assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources at the close of the fiscal year by \$524.8 million.
- ➤ The net increase to governmental activity long-term debt of \$6.2 million is due to \$9.5 million of additional debts and \$3.3 million of scheduled payments of principal and unamortized premium retirements. Additional information can be found in Note 8.
- ➤ The net decrease to business-type activity long-term debt of \$3.4 million was due to scheduled principal payments and amortization of related premiums.

#### Governmental Funds:

At the end of the current fiscal year, the unassigned fund balance for the General Fund was \$17.6 million, or 70.5% of the General Fund balance.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis is intended to serve as an introduction to the City of Merced's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other required supplementary information.

**Government-Wide Financial Statements** - Government-wide financial statements are designed to provide readers with a broad overview of the City of Merced's finances, in a manner similar to a private-sector business.

The focus is on both the City as a whole and the fund financial statements, including the major individual funds of the governmental and business-type categories, as well as the fiduciary funds, (by fund type) and the component units. Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as either governmental or business-type. In the government-wide Statement of Net Position, both the governmental and business-type activities columns are presented on a consolidated basis by column, and are reflected, on a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations. Each presentation provides valuable information that can be analyzed and compared (between years and between governments) to enhance the usefulness of the information.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS, Continued**

The Statement of Net Position presents information on all City assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities presents information showing how the government's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and compensated absences).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, public works and culture and recreation. The business-type activities of the City include an airport, water, wastewater and refuse services.

The Government-Wide Financial Statements include not only the City itself (known as the primary government), but also the following legally separate entities for which the City is financially accountable:

- The City of Merced Public Financing and Economic Development Authority (Authority)
- The Parking Authority of the City of Merced (Parking Authority)

The financial information for these component units is blended with the City and reported in the governmental activities of the government-wide financial statements and the fund financial statements.

**Fund Financial Statements** - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

**Governmental Funds -** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS, Continued**

The City maintains thirty-three individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for General Fund, Housing Special Revenue Fund, Measure C Special Revenue Fund, Low and Moderate Income Housing Special Revenue Fund, and Streets and Signals Capital Projects Fund, which are considered major funds. Data from the other non-major governmental funds are combined into a single, aggregated presentation.

The City adopts an annual appropriated budget for all its governmental funds. Budgetary comparison statements have been provided for the General Fund, Housing Special Revenue Fund, Measure C Special Revenue Fund, and the Low and Moderate Income Housing Special Revenue Fund as required supplementary information to demonstrate compliance with the budget.

Proprietary Funds - The City maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Information is presented separately in the proprietary statement of net position and the proprietary statement of revenues, expense and changes in net position for the Wastewater System, Water System and Refuse Collection System, which are considered major funds. The Airport Fund is the only non-major enterprise fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for workers' compensation, liability and unemployment insurance, employee benefits, fleet management and replacement, facility maintenance, support services, personal computer replacement, and public works administration. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

**Fiduciary Funds –** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

**Notes to the Basic Financial Statements -** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**Other Information –** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's progress in funding its obligation to provide pension and postemployment health care benefits to its employees and budgetary comparison schedules for the General Fund and major special revenue funds.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

As noted earlier, net position may serve over time as a useful indicator of a governments' financial position. In the case of the City, assets exceeded liabilities by \$524.8 million at the close of the most recent fiscal year.

#### **Summary of Net Position**

Total deferred inflows	3,235,513	3,966,691	998,959	1,046,968	4,234,472	5,013,659
Net position:						
Net investment in capital assets	259,952,632	269,588,893	107,172,623	109,823,198	367,125,255	379,412,091
Restricted	85,008,595	73,040,192	55,895,820	47,461,141	140,904,415	120,501,333
Unrestricted	(54,366,754)	(43,911,962)	71,170,958	61,096,173	16,804,204	17,184,211
Total net position	\$ 290,594,473	\$ 298,717,123	\$ 234,239,401	\$ 218,380,512	\$ 524,833,874	\$ 517,097,635

The largest portion of the City's net position \$367.1 million or 70%, reflects its net investment in capital assets (e.g., land and improvements, construction in progress, buildings and structures, machinery and equipment, and improvements other than buildings, structures and land improvements), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Of the City's \$524.8 million total net position, \$140.9 million, or 26.8% of these resources are subject to external restrictions on how they may be used. The total unrestricted net position is \$16.8 million. The business-type activities restricted and unrestricted net position is \$55.9 million and \$71.2 million, respectively.

The total business-type activities reported positive balances in all category of net position.

#### GOVERNMENT-WIDE FINANCIAL ANALYSIS, Continued

**Analysis of the City's Operations** - The following table provides a summary of the changes in net position for governmental and business-type activities.

#### Statement of Activities

**Governmental Activities –** Governmental activities decreased the City's net position by \$9.6 million. Taxes provided 59.1% of the revenue and charges for services provided 25.2% of the revenue, and operating and capital grants and contributions provided 9.5% of the revenue received during the year.

#### GOVERNMENT-WIDE FINANCIAL ANALYSIS, Continued

The following table shows the cost of each of the City's major programs and the net cost of the programs. Net cost is the total cost less fees and other direct revenue generated by the activities. The net cost reflects the financial burden that was placed on the City's taxpayers by each of the programs.

#### Net Cost of Governmental Activities For the Fiscal Year Ended June 30, 2020

	Total Cost of Services			Net Cost of Services
General government	\$	10,027,416	\$	(669,283)
Public safety		42,130,516		(37,858,794)
Public works		21,367,892		(9,029,444)
Culture and recreation		3,467,779		(2,709,376)
Interest on long-term debt		471,935		(471,935)
Total	\$	77,465,538	\$	(50,738,832)

The costs for all governmental activities during the year were \$77.5 million, which is 60% of total governmental and business-type activities expenses. These costs were paid for by \$26.7 million of program revenues, \$45.5 million of taxes, and \$4.7 million of investment earnings and other revenue. Transfer from City's governmental activities were \$408,953.

**Business-type Activities** – Business-type activities increased the City's net position by \$15.8 million. This increase consists of fees collected for future capital projects. The revenues from the business-type activities include program revenue, taxes, interest and investment earnings, other revenue and transfers of \$67.4 million. Expenses of business-type activities were \$51.6 million.

#### FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds** – The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, the unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The City's governmental funds reported a combined fund balance at June 30, 2020 of \$116 million, an increase of \$13.0 million.

The General Fund is the chief operating fund of the City. The General Fund is used to account for all financial resources except those required to be accounted for in another fund. At the end of the current fiscal year, the fund balance of the General Fund was \$25.0 million and the unassigned fund balance was \$17.6 million. As a measure of the General Fund's liquidity, it may be useful to compare unassigned fund balance to total expenditures. The unassigned fund balance represents 40.3% of total General Fund expenditures.

#### FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS, Continued

The General Fund balance increased by \$1.5 million during the fiscal year. Taxes are the primary revenue of the General Fund. Property tax increased by 8.4%, sales tax increased by 5.4% while transient occupancy tax decreased by 11.00%.

Changes in fund balances of other major funds include the following:

#### Housing Fund-

• This special revenue fund increased by \$1,479,924 due to other contribution revenue receipt for an affordable Housing project, and receipt of program income and repayments of principal and interest on loans.

#### Measure C Fund-

• This special revenue fund increased by \$367,945 due to unspent funding that will be used to cover encumbrances.

#### Low and Moderate Income Housing Fund-

• This special revenue fund decreased by \$73,931 due to less repayment of principal and interest on loans.

#### Streets and Signals Fund-

• This capital projects fund increased by \$80,793 due to unspent capital outlay funding that will be used to cover encumbrances.

**Proprietary Funds** – The City's proprietary funds provide the same type of information found in the Government-Wide Financial Statements, but in more detail.

The unrestricted net position of the Governmental Activities Internal Service Funds is negative \$2.4 million. The unrestricted net position of the Enterprise Funds was \$71.2 million. The change in net position for the Governmental Activities Internal Service Funds is a decrease of \$1.0 million and the Enterprise Funds is an increase of \$15.9 million. Other factors concerning the finances of the Proprietary funds have been addressed in the discussion of the City's business-type activities.

#### GENERAL FUND BUDGETARY HIGHLIGHTS

During the fiscal year, the City Council approved budgetary revisions for supplemental appropriations, which increased appropriations in individual funds and transfers between funds.

The difference between the General Fund original revenue budget and the final revenue budget is an increase of \$543,945, which includes taxes, grants, and other revenues. The difference between the General Fund original expenditure budget and the final expenditure budget is an increase of \$2.3 million, which includes machinery and equipment, supplies and services, capital outlay and personnel related expenditures.

#### CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets – The City of Merced's investment in capital assets for its governmental and business-type activities as of June 30, 2020, amounted to \$397.2 million. This investment in capital assets includes land and improvements, construction in progress, buildings and structures, machinery and equipment, and improvements other than buildings, structures, and land improvement. Additional information on the City of Merced's capital assets can be found in Note 6.

During the current fiscal year, the City's net debt increased by \$2.8 million or 6%. The net increase was due to \$9.5 million of additional debts and \$6.7 million of scheduled payments of principal and unamortized premium retirements. Additional information on the City of Merced's debt can be found in Note 8.

\$ 9,479,109

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

- At the onset of developing the FY 2020-21 Budget, the City of Merced's financial outlook was positive. Indicators such as, unemployment figures declining, building activity trending toward record-highs, and several new businesses slated to open in the fall demonstrated the City's momentum. However, with the arrival of the COVID-19 pandemic in early February coupled with Governor Newsom's Stay-At-Home Orders, it seemed the City's economic outlook was rapidly changing. The City of Merced's unemployment rate was predicted to reach 20.5% by May 2020. In addition, the closing of non-essential businesses was estimated to create a drastic reduction in economic activity across all business sectors. We had started to experience declining revenues in sales tax, transient occupancy tax, and gas tax. For the close of Fiscal Year 2019-20 and moving into the start of fiscal year 2020-21 the impacts were expected to amount to approximately \$5.4 million in lost revenue.
- With COVID-19 challenges in mind, the fiscal year 2020-21 budget was created with the priority of
  maintaining essential services to the community, minimizing impacts to existing staffing levels, and
  incorporating as many goals & priorities as allowed under the fiscal constraints. The City Council
  adopted a balanced budget, which included the deletion of one position and holding five positions
  vacant, use of Measure Y Cannabis Tax revenue and Trust 115-Pension reimbursement.
- Measure Y, a Commercial Cannabis Business Tax for up to \$25 per square foot of cultivation space, or 10% of gross receipts, was passed by the voters in June 2018. Three cannabis dispensaries have opened and are paying the Measure Y Tax. In fiscal year 2019-20, Measure Y tax collected over \$1.1 million. It is expected to increase in future years as more cannabis businesses are slated to open.
- Although there has been a lot of uncertainty due to the COVID-19 pandemic, economic indicators have not been as bad as originally predicted. Sales Tax reports show we are surpassing budget predictions on a cash basis as well as with economic adjustments. Building and Industry, Food and Drugs, and State and County pools have increased while Restaurants and Hotels, Fuel and Service Stations, and General Consumer Goods have decreased. While the unemployment rate increased to 18% in April 2020, it has gradually declined and is 9.6% as of November 2020. Residential development continues to increase year over year.
- On August 6, 2019, the City of Merced finalized a Settlement Agreement with the California Department of Finance. The litigation, which had begun November 16, 2016, resolved was regarding the wind down of the Redevelopment Agency for the City of Merced (RDA) pursuant to Assembly Bill 26 and Assembly Bill 1484, collectively the "Dissolution Law." All parties agreed that the City of Merced will remit \$9,528,395.83 to the Merced Designated Local Authority based on the schedule outlined in Note 8.
- Enterprise Funds continue to maintain a stable financial position. The refuse rates were approved in Fiscal Year 2019-20. Rates will increase for solid, organic, and recycle waste collections beginning July 1, 2020, then every July through 2023. Commercial service rate increases, 37% in the first year and 10% every July though 2023, are higher than residential rates in order to align them with actual costs of services and the market conditions. Residential rates will increase 20% in the first year and 5% every July through 2023. During the rate study process, several State of California legislation changes and new regulations from the California Air Resources Board were considered, including AB341 and AB1826.

#### SUBSEQUENT EVENTS

On November 16, 2020, the City Council approved establishing a General Fund reserve and policy. The policy creates a commitment to prudent fiscal practices and maintains adequate General Fund reserves to ensure consistent, uninterrupted municipal services and facilities in the wake of potential risk events, such as a major economic downturn or natural disaster. Based on the Government Finance Officers Association (GFOA) risk analysis model recommendation the City Council voted unanimously to set the General fund reserve at 35% of the General Fund operating budget. 30% will be set aside in a separate fund and 5% will remain in the General Fund as contingency. For Fiscal Year 2020-21, the General Fund Reserve is \$15.3 million, of which \$13.1 million (30%) has been set aside in a separate fund.

#### REQUEST FOR INFORMATION

This financial report is designed to provide a general overview of the City of Merced's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Officer, City of Merced, 678 West 18th Street, Merced, CA 95340.

## FUND FINANCIAL STATEMENTS

Governmental Fund Financial Statements
Proprietary Fund Financial Statements
Fiduciary Fund Financial Statements

This page intentionally left blank

#### GOVERNMENTAL FUND FINANCIAL STATEMENTS

*General Fund* - This fund is used to account for financial resources applicable to the general government operations of the City of Merced. In compliance with Governmental Accounting Standards Board Statement No. 54, the Parks and Community Services, the Revenue Stabilization, Economic Development Opportunity, and the Substandard Housing Funds have been reported with the General Fund because a substantial portion of the inflows are not derived from restricted or committed revenue sources and do not meet the definition of a Special Revenue Fund.

**Housing Special Revenue Fund** - This fund is used to account for programs and activities aimed at benefiting low and moderate income persons. The Block Grant is used for providing loans to low and moderate income persons for rehabilitation of dwelling units, and support to other funds which provide grant-eligible services.

*Measure C Special Revenue Fund* - This fund is used to account for the one-half cent transactions and use tax that was approved by area voters and became effective April 1, 2006.

Low and Moderate Income Housing Special Revenue Fund - This fund is used to account for low and moderate income housing activities. On January 12, 2012, the City Council adopted Resolution 2012-5, assuming all rights, powers, assets, liabilities, duties, and obligations associated with the housing activities of the former Redevelopment Agency.

*Streets and Signals Capital Projects Fund* - This fund is used to account for the projects which are funded by State and Federal sources and Public Facilities Impact fees.

## Reconciliation of the Governmental Funds Balance Sheet to the Government-Wide Statement of Net Position June 30, 2020

Total Fund Balances - Total Governmental Funds					\$ 115,964,269
Amounts reported for governmental activities in the Statement of Net Position are different because:					
Capital assets used in governmental activities are not current financial resources. Therefore, they are not reported in the Governmental Funds Balance Sheet. Except for the internal service funds reported below, the capital assets are adjusted as follows:					
	Wio	overnment- de Statement Net Position	Se	Internal ervice Funds	
Non-depreciable	\$	96,162,289	\$	(269,141)	95,893,148
Depreciable, net		165,165,213		(9,094,130)	156,071,083
Total capital assets	\$	261,327,502	\$	(9,363,271)	251,964,231
•			_		
Interest payable on long-term debt did not require current financial resources. Therefore, interest payable is not reported as a liability in Governmental Funds Balance Sheet.					(33,452)
Internal service funds are used by management to charge the costs of certain activities, such as insurance, to individual funds. The assets and liabilities of the Internal Service Funds are included in governmental activities in the Government-Wide Statement of Net Position.					5,575,672
Employer contributions for pension are recorded as expenditures in the governmental funds. However, in the Government-Wide Financial Statement these contributions are deferred.					8,437,933
In the Government-Wide Financial Statements certain differences between actuarial estimates and actual results for pension are deferred and amortized over a period of time, however in the governmental funds no transactions are recorded.					1,999,493
Employer contributions for OPEB are recorded as expenditures in the governmental funds. However, in the Government-Wide Financial Statement these contributions are deferred.					1,024,334
In the Government-Wide Financial Statements certain differences between actuarial estimates and actual results for OPEB are deferred and amortized over a period of time, however in the governmental funds no transactions are recorded.					(834,732)
Long-term liabilities are not due and payable in the current period. Therefore, they are not reported in the Governmental Funds Balance Sheet.

## City of Merced

## Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Government-Wide Statement of Activities For the year ended June 30, 2020

Net Change in Fund Balances - Total Governmental Funds	\$ 12,986,587
Amounts reported for governmental activities in the Statement of Activities are different because:	
Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of capital assets recorded in the current period, net of internal service funds of \$3,010,596.	3,038,835
Contributed capital assets are reflected in the Government-Wide Statement of Activities as capital contributions. However capital contributions related to donated capital assets are not reported in governmental funds as capital assets are not considered current financial resources.	1,418,258
Depreciation expense on capital assets is reported in the Government-Wide Statement of Activities, but does not require the use of current financial resources. Therefore, depreciation expense is not reported as expenditures in the governmental funds. This amount is net of internal service funds of \$2,194,603.	(14,923,890)
In the Statement of Activities, only the gain or (loss) on the sale of capital assets is reported, whereas in the governmental funds proceeds from sales increases financial resources. This represents the difference between proceeds and the loss on disposal of capital assets.	(158,861)
Accrued compensated leave payable is an expenditure in governmental funds, but the accrued payable increased compensated leave liabilities in the Government-Wide Statement of Net Position.	(511,354)
OPEB expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.	242,166
Long term debt proceeds provided current financial resources to governmental funds, but issuing debt increased long-term liabilities in the Government-Wide Statement of Net Position. Repayment of bond principal is an expenditure in governmental funds, but the repayment reduced long-term liabilities in the Government-Wide Statement of Net Position.	
Recognition of settlement agreement with State of California  Long-term debt repayments	(9,528,396) 2,810,000
Interest expense on long-term debt is reported on the accrual basis on the Government-Wide Statements, but expenditures on long-term debt in the governmental funds statements are recorded when paid. The following amount represents the change in accrued interest from the prior year.	7,323
Current year employer OPEB contributions are recorded as expenditures in the governmental funds, however these amounts are reported as a deferred outflow of resources in the Government-Wide Statement of Net Position.	769,301
Current year employer pension contributions are recorded as expenditures in the governmental funds, however these amounts are reported as a deferred outflow of resources in the Government-Wide Statement of Net Position.	8,437,933
Pension expense is recorded as incurred in the Government-Wide Statement of Activities, however pension expense is not recognized in the governmental funds.	(13,154,804)
Internal service funds are used by management to charge the costs of certain activities, such as insurance and fleet management, to individual funds. The net expense of the internal service funds is reported with governmental activities.	(1,030,448)
Change in Net Position of Governmental Activities	\$ (9,597,350)

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the City of Merced, California, (City) have been prepared in conformity with Generally Accepted Accounting Principles (GAAP) as applied to governmental agencies. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

# A. Reporting Entity

The City operates under a Council-Manager form of government and provides the following services: safety (police and fire), highways and streets, wastewater, water, refuse, parks and recreation, planning and zoning, airport and general administrative services. The City was incorporated April 1, 1889 while the current Charter for the City's government was ratified by electors on April 12, 1949 and approved by the legislature of the State of California on May 11 and May 12, 1949.

The financial reporting entity, as defined by GASB, consists of the primary government, the City, and organizations for which the primary government is financially accountable and any other organization for which the nature and significance of their relationship with the primary government are such that exclusion would cause the City's financial statements to be misleading or incomplete. Blended component units are, in substance, part of the primary government's operations, even though they are legally separate entities. Thus, the blended component units are appropriately presented as funds of the primary government.

The City Council acts as the governing body and is able to impose its will on the following organizations, establishing financial accountability:

- The City of Merced Public Financing and Economic Development Authority (Authority)
- The Parking Authority of the City of Merced (Parking Authority)

The Authority is a separate public entity and provides for the financing of costs and expenses of acquisition, construction and installation of authorized public capital improvements for the members through any financing procedures legally available to the members. All powers are vested in the governing board. The Authority was originally created in August 1987 but had expired by its terms. The Authority was re-created on January 1, 2003, by City and former City of Merced Redevelopment Agency (Agency). The Parking Authority became a member of the Authority on April 18, 2011. On January 30, 2012, the Agency was removed as a member from the Authority. Separately issued financial statements for the Authority are not prepared.

The Parking Authority is a separate public entity and is a specialized governmental agency focusing on parking issues and how to alleviate parking problems. All powers are vested in the governing board. The Parking Authority was created on April 18, 2011, by City and Authority Resolutions. Separately issued financial statements for the Parking Authority are not prepared.

All entities included in this financial statement maintain June 30 as their fiscal year-end.

The City provides accounting and investing services for the Merced Area Gang and Narcotic Enforcement Team (MAGNET), whose funds are included in the City's pooled cash for investing purposes only. The City does not have the ability to exercise influence over MAGNET, therefore this entity is reported in the accompanying financial statements as Agency Funds in the Fiduciary Fund Financial Statements.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

# B. Basis of Presentation

Government-Wide Fund Financial Statements

The Statement of Net Position and the Statement of Activities report information on all of the activities of the government, except for fiduciary activities. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included in program revenues are reported as general revenues.

#### Fund Financial Statements

Separate financial statements are provided for Governmental Funds, Proprietary Funds, and Fiduciary Funds, even though the latter are excluded from the Government-Wide Financial Statements. Major individual Governmental Funds and major individual Enterprise Funds are reported as separate columns in the Fund Financial Statements.

Major funds are funds whose revenues, expenditures or expenses, assets, or liabilities are at least ten percent of the corresponding totals for all Governmental or Enterprise Funds and at least five percent of the aggregate amount for all Governmental and Enterprise Funds for the same type. The General Fund is always a major fund and any other governmental or enterprise fund may be reported as a major fund if the City believes that fund is particularly important to financial statement users. The City reports the following major governmental funds:

The <u>General Fund</u> is the City's primary operating fund. It accounts for all financial resources of the general government. In compliance with Governmental Accounting Standards Board Statement No. 54, the Parks and Community Services, Revenue Stabilization, Economic Development Opportunity and Substandard Housing Funds have been reported with the General Fund because a substantial portion of the inflows are not derived from restricted or committed revenue sources and do not meet the definition of a Special Revenue Fund.

The <u>Housing Special Revenue Fund</u> is used to account for programs and activities aimed at benefiting low and moderate income persons. The majority of the fund's revenue is derived from grants that are restricted for these programs and activities.

The <u>Measure C Special Revenue Fund</u> is used to account for the one-half cent transaction and use tax that was approved by area voters and became effective April 1, 2006. The funds are committed for public safety, transportation, and other vital municipal improvements.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

# B. Basis of Presentation, Continued

The <u>Low and Moderate Income Housing Special Revenue Fund</u> is used to account for housing activities. On January 12, 2012, City Council adopted Resolution 2012-5 assuming all rights, powers, assets, liabilities, duties, and obligations associated with the housing activities of the former Redevelopment Agency. The funds are restricted for Low and Moderate Income Housing projects.

The <u>Streets and Signals Capital Projects Fund</u> is used to account for projects which are funded by state and federal sources and public facilities impact fees. These funds are accounted for in Special Revenue Funds and then transferred to the Streets and Signals Capital Projects Fund when the project expenditures have been incurred. The funds are restricted for public capital improvement projects.

The City reports the following proprietary funds as major:

The <u>Wastewater System Fund</u> is used to account for treatment of industrial and domestic wastewater. The fund collects user fees and disburses all expenditures for this purpose. The fund also collects fees resulting from new growth. These funds will be used in the future to expand capacity of the wastewater treatment plant due to growth. The Wastewater System Fund consists of the Wastewater Operation, Wastewater Improvement, Wastewater Revolving and University Capital Charge Wastewater Funds.

The <u>Water System Fund</u> is used to account for operation and maintenance of a water system consisting of well sites, deep well pumps, fluoridation facilities, distribution pipelines and elevated storage tanks. The Water System Fund consists of the Water Operation, Restricted Water Wells, Restricted Water Mains and University Capital Charge Water Funds.

The <u>Refuse Collection System Fund</u> is used to account for collection and disposal of municipal solid waste from industrial, commercial and residential customers. In addition, the fund provides for a green waste and recycling program which was created to divert waste from the landfill. The Refuse Collection Fund consists of the Refuse Collection and Refuse Capital Equipment Funds.

Additionally, the government reports the following fund types:

The <u>Internal Service Funds</u> are used to account for services provided to other departments of the City on a cost reimbursement basis. The City has Internal Service Funds for workers' compensation, liability and unemployment insurance, employee benefits, fleet management and replacement, facility maintenance, support services, personal computer replacement, and public works administration.

The <u>Private Purpose Trust Funds</u> are used to account for resources legally held in trust for the Youth Programs Endowment and Wahneta Hall Trust.

The <u>Agency Funds</u> are used to account for resources held by the City in a purely custodial capacity. Included in the agency funds are deposits from external organizations, the handling of assessment district activity and special purpose accounts for City community groups.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

# B. Basis of Presentation, Continued

Certain eliminations have been made as prescribed by GASB Statement No. 34 for interfund activities, payables and receivables. All internal balances in the Statement of Net Position have been eliminated except those representing balances between governmental activities and business-type activities, which are presented as internal balances and eliminated in the total governmental column. In the Statement of Activities, internal service fund transactions have been eliminated. However, transactions between governmental and business-type activities have not been eliminated.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the proprietary and internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

#### C. Basis of Accounting

The Government-Wide Financial Statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the Proprietary Fund Financial Statements.

Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Property taxes are recognized as revenues in the year for which they are levied. Property taxes attach as an enforceable lien on property. Secured and unsecured property taxes are levied on July 1. The unsecured and secured property tax lien date is January 1. Unsecured property taxes become delinquent on August 31. Secured property taxes are payable in two installments, on November 1 and February 1 of each year, and become delinquent on December 10 and April 10, respectively. The County of Merced, California (County) bills and collects the property taxes and remits them to the City according to a payment schedule established by the County. City property tax revenues are recognized when received in cash except at year-end when they are accrued pursuant to the modified accrual basis of accounting. The County is permitted by State law to levy property taxes at 1% of property's assessed value and can increase property assessed value no more than 2% per year, except when property changes ownership or new construction occurs.

Governmental Fund Financial Statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers all revenues, except sales and use tax, to be available if collected within 60 days. Sales and Use Tax is considered available if collected within 90 days of the end of the current fiscal period. Expenditures generally are recorded in the accounting period in which the related liability is incurred.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

# D. Cash, Cash Equivalents, and Investments

Cash and Cash Equivalents consist of cash on hand and demand deposits and are stated at cost. All other investments are stated at fair value.

The City pools cash resources from all funds in order to facilitate the management of cash. The balance in the pooled cash account is available to meet current operating requirements. Cash in excess of current requirements is invested in various interest-bearing accounts and other investments.

The City participates in the Local Agency Investment Fund (LAIF), an investment pool managed by the State of California. LAIF's investments are subject to credit risk with the full faith and credit of the State of California collateralizing these investments.

#### E. Receivables

All receivables are shown net of an allowance for doubtful accounts. Service charge revenues for water, sewer and refuse collection are recorded when billed to customers on a cyclical basis. All utility customers are billed monthly. Amounts unbilled at June 30 are recorded as a receivable and recognized as revenue.

#### F. Interfund Balances/Internal Balances

Advances to and advances from other funds represent interfund loans in the fund financial statements. Advances between funds are offset by a non-spendable fund balance classification in the applicable governmental funds to indicate that they are not available financial resources.

All other outstanding balances between funds are reported as due to and due from other funds. These are generally repaid within the following fiscal year.

Any residual balances outstanding between the governmental activities and business-type activities are reported in the Government-Wide Financial Statements as "internal balances."

#### G. Inventory

Inventory is valued at average cost, which approximates cost as determined on a first-in-first-out basis. Inventory in the General Fund consists of expendable supplies held for consumption by all departments of the City. The cost is recorded as an expenditure or expense in the appropriate fund at the time individual inventory items are withdrawn for use (consumption method). The General Fund inventory amount is offset by a non-spendable fund balance classification, which indicates that it does not constitute available financial resources. Inventories in the proprietary funds are recorded at cost, which approximates market.

# H. Land Held for Resale

Land held for resale consists of land and project costs relating to property acquired or constructed which will be sold under terms of disposition and development agreements between the City (or its component units) and developers. The land held for resale is recorded at the lower of cost or estimated net realizable value.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

#### I. Capital Assets

Capital assets, which include land and improvements, buildings and structures, improvements other than buildings, structures, and land improvements, machinery and equipment, construction in progress and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities in the Government-Wide Financial Statements. Capital assets are recorded at historical cost or estimated historical cost if actual cost is not available. Donated assets are valued at their estimated fair value on the date donated. City policy has set the capitalization thresholds for reporting capital assets as the following:

General capital assets	\$ 5,000
Infrastructure capital assets	\$ 5,000

Depreciation is recorded on a straight-line basis over the following useful lives:

	Years
Infrastructure	10-40
Buildings and structures	15-20
Improvements other than buildings	15
Machinery and equipment	5

The City defines infrastructure as the basic physical assets that allow the City to function. The assets include streets, water and sewer systems, park land, and other similar items. Each major infrastructure system can be divided into subsystems. For example, the street system can be subdivided into pavement, curb and gutters, sidewalks, medians, streetlights, landscaping and land. These subsystems are not delineated in the basic financial statements.

Interest accrued during capital assets construction, if any, is capitalized as part of the asset cost for the business-type and proprietary funds.

The City elected to use the Basic Approach as defined by GASB Statement No. 34 for infrastructure reporting. The City commissioned an appraisal of City owned infrastructure and property as of June 30, 2002. This appraisal determined the original cost, which is defined as historical cost or estimated historical cost if actual cost was not available. The accumulated depreciation was calculated from the date of construction/acquisition to the current date on a straight-line basis. The book value can be computed by deducting the accumulated depreciation from the original cost.

#### J. Deferred Outflows/Inflows of Resources

In addition to assets, the Statement of Net Position will report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and will not be recognized as an outflow of resources until then.

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

# J. Deferred Outflows/Inflows of Resources, Continued

In addition to liabilities, the Statement of Net Position will report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and will not be recognized as an inflow of resources (revenue) until that time.

# K. Compensated Absences

The City accounts for compensated absences in accordance with GAAP. In the Government-Wide Financial Statements and Proprietary Fund Financial Statements, which use the accrual basis of accounting, accrued compensated absences benefits are recorded as liabilities as vested and earned.

#### L. Unearned Revenue

In the Government-Wide Financial Statements and Fund Financial Statements, unearned revenue is recorded for transactions for which revenues have not been earned.

#### M. Long-Term Liabilities

In the Government-Wide Financial Statements and Proprietary Fund Financial Statements, long-term debt and other financed obligations are reported as liabilities in the appropriate activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable premium or discount.

In the Fund Financial Statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs are reported as expenditures.

#### N. Net Position and Fund Equity

Government-Wide Financial Statements

In the Government-Wide Financial Statements, net position is classified in the following categories:

<u>Net Investment in Capital Assets</u> – This amount consists of capital assets net of accumulated depreciation and reduced by outstanding debt that is attributed to the acquisition, construction, or improvement of the assets.

<u>Restricted Net Position</u> - This amount is restricted by external creditors, grantors, contributors, or laws or regulations of other governments.

<u>Unrestricted Net Position</u> - This amount is all net position that does not meet the definition of "net investment in capital assets" or "restricted net position."

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

# N. Net Position and Fund Equity, Continued

Fund Financial Statements

In the Fund Financial Statements, the following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

<u>Nonspendable fund balance</u> – This includes amounts that cannot be spent because they are either not spendable in form or legally or contractually required to remain intact.

<u>Restricted fund balance</u> – This includes amounts with constraints placed on their use by those external to the City, including creditors, grantors, contributors or laws and regulations of other governments. It also includes constraints imposed by law through constitutional provisions or enabling legislation.

<u>Committed fund balance</u> – This includes amounts that can only be used for specific purposes determined by formal action of the City Council and that remain binding unless removed in the same manner. The underlying action that imposed the limitation needs to occur no later than the close of the reporting period.

<u>Assigned fund balance</u> – This includes amounts that are constrained by the City's intent to be used for specific purposes. The intent can be established at either the highest level of decision making or by a body or an official designated for that purpose. The City Council has not delegated the authority to assign fund balance.

<u>Unassigned fund balance</u> – This is the residual classification that includes amounts not contained in the other classifications.

The City Council establishes, modifies or rescinds fund balance commitments and assignments by action, which includes passage of a resolution adopting the budget and appropriating revenue for the fiscal year. Detailed classifications of the City's fund balances are presented in Note 10.

#### O. Net Position and Fund Equity Flow Assumptions

Government-Wide Financial Statements

When an expense is incurred for purposes for which both restricted and unrestricted net position is available, the City's policy is to apply restricted net position first.

Fund Financial Statements

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the City's policy is to apply restricted funds first. Committed, assigned, and unassigned fund balances are considered unrestricted. When an expenditure is incurred, if committed, assigned, or unassigned fund balances are available, the City considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed.

#### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

# P. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates and assumptions.

#### Q. Pension

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City's California Public Employees' Retirement System (CalPERS) plans (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. For this report, the following timeframes are used:

Valuation Date June 30, 2018 Measurement Date June 30, 2019

Measurement Period June 30, 2018 to June 30, 2019

# R. Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the plan's (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value. Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date June 30, 2018 Measurement Date June 30, 2019

Measurement Period June 30, 2018 to June 30, 2019

#### S. New Accounting Pronouncements

In 2020, the City did not adopt any new accounting pronouncements.

#### 2. CASH AND INVESTMENTS

# A. Summary of Cash and Investments

The following is a summary of pooled cash and investments, including restricted cash and investments at June 30, 2020:

	Government-Wide Statement of Net Position						Fund	d Financials		
							Fidu	ciary Funds		
	G	overnmental	Вι	usiness-Type			Sta	atement of		
		Activities		Activities		Total	Net Position		Total	
Cash and investments Restricted cash	\$	91,467,480	\$	151,588,272	\$	243,055,752	\$	3,136,810	\$ 246,192,562	
held by fiscal agent		3,863,560		439		3,863,999		3,100,895	6,964,894	
Total Cash and Investments	\$	95,331,040	\$	151,588,711	\$	246,919,751	\$	6,237,705	\$ 253,157,456	

Cash and investments as of June 30, 2020, consist of the following:

Cash on Hand	\$ 4,923
Deposits with financial institutions	3,836,598
Restricted Cash held by fiscal agent	6,964,894
Investments	242,351,041
Total Cash and Investments	\$ 253,157,456

The City maintains a cash and investment pool, which includes cash balances and authorized investments of all funds, which the Finance Officer invests to enhance interest earnings. The interest earned is allocated to the funds based on monthly cash and investment balances in these funds.

GASB Statement No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools, requires that the City's investments to be carried at fair market value instead of cost. If material, the City adjusts the carrying value of its investments to reflect their fair value at each fiscal year-end and the effects of these adjustments are included in income for that fiscal year. The fair market value adjustment for the fiscal year ended June 30, 2020 was \$10,069,754.

# B. Fair Value of Investments

Investments (except for money market accounts, time deposits, and commercial paper) are measured at fair value on a recurring basis. Recurring fair value measurements are those that Governmental Accounting Standards Board (GASB) Statements require or permit in the statement of net position at the end of each reporting period. Fair value measurements are categorized based on the valuation inputs used to measure an asset's fair value. Inputs are assumptions that market participants use when pricing an asset or liability. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investment fair value measurements at June 30, 2020 are described below.

		Fair Value Measurement Using							
Investment Type	Total	Level 1	Level 2	Level 3					
Asset-backed Securities	\$ 15,538,582	\$ -	\$ 15,538,582	\$ -					
Federal Agency Securities	67,271,653	-	67,271,653	-					
Commercial Paper	17,065,641	-	17,065,641	-					
Municipal Securities	2,347,114	-	2,347,114	-					
Supranational Securities	9,213,231	-	9,213,231	-					
U.S. Corporate Securities	54,575,332	-	54,575,332	-					
U.S. Treasury Securities	31,272,988	_	31,272,988						
Total investments subject to leveling	197,284,541	\$ -	\$ 197,284,541	\$ -					
Investments not subject to leveling:									
Local Agency Investment Fund	45,066,500								
Total Investments	\$ 242,351,041								

Asset-backed Securities, Federal Agency Securities, Commercial Paper, Municipal Securities, Supranational Securities, U.S. Corporate Securities, and U.S. Treasury Securities categorized as Level 2 are valued based on matrix pricing techniques. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

Investments included in restricted cash and investments included money market accounts and guaranteed investment contracts that are not subject to fair value measurement.

# 2. CASH AND INVESTMENTS, Continued

# C. Investments

The City is a voluntary participant in the California Local Agency Investment Fund (LAIF) that is regulated by the California Government Code with oversight by the Treasurer of the State of California. At June 30, 2020, LAIF included the following:

Structured Notes are debt securities (other than asset-backed securities) whose cash-flow characteristics (coupon rate, redemption amount, or stated maturity) depend upon one or more indices and/or have embedded forwards or options.

Asset-backed Securities, the bulk of which are mortgage-backed securities, entitle their purchasers to receive a share of the cash flows from a pool of assets such as principal and interest repayments from a pool of mortgages (such as Collateralized Mortgage Obligations) or credit card receivables.

As of June 30, 2020, the City had \$45,066,500 invested in LAIF, which had invested 3.37% of the pooled investment funds in Medium-term and Short-term Structured Notes and Asset-Backed Securities as compared to 1.77% in the previous year. The LAIF fair value factor of 1.004912795 was used to calculate the fair value of the investments in LAIF.

The City is authorized by State statutes and in accordance with the City's Investment Policy (the Policy) to invest in the following:

- \* Municipal Securities
- \* U.S. Treasury Securities
- \* U.S. Corporate Securities
- \* Federal Agency Securities
- \* Federally Insured Time Deposits
- \* Collateralized Time Deposits
- Negotiable Certificates of Deposit
- Local Agency Investment Fund
- Collateralized Bank Deposits
- \* Bankers' Acceptances
- \* Commercial Paper
- \* Medium-Term Notes
- \* Repurchase Agreements
- \* Mutual Funds and Money Market Mutual Funds
- \* Asset-backed Securities
- \* Foreign Corporate Securities
- \* Supranational Securities

#### D. Risks

Interest Rate Risk: Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, an investment with a longer maturity date has a greater sensitivity of its fair value to be subject to changes in market interest rates. In accordance with the City's investment policy, exposure to interest rate risk is mitigated by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Cash and investments, including cash with fiscal agents, held in the City by maturity date at June 30, 2020 are shown on the following page:

	Investr				ment Maturities (in years)					
Cash and Investments	Fair Value			Less than 1	1-3 years		3-5 years			
				year						
Cash:										
Cash Deposits	\$	3,836,598	\$	3,836,598	\$	-	\$	-		
Petty Cash		4,923		4,923		-		-		
Total cash		3,841,521		3,841,521		-		-		
Investments:	•									
Federal Agency Securities		67,271,653		6,209,794		30,010,096		31,051,763		
U.S. Corporate Securities		54,575,332		6,169,868		33,125,166		15,280,298		
U.S. Treasury Securities		31,272,988		2,520,118	9,330,588			19,422,282

#### D. Risks, Continued

*Credit Risk:* Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization.

Presented below is the June 30, 2020 rating which meets the minimum rating required by (where applicable) the California Government Code, the City's Investment Policy, or debt agreements:

	<b>Credit Quality Ratings</b>
Investments:	
Asset-backed Securities	Aaa
Federal Agency Securities	Aaa
Collateralized Mortgage Obligations	Aaa
Municipal Securities	Aa2
Supranational Securities	Aaa
U.S. Corporate Securities	Aaa
U.S. Treasury Securities	Aaa
Fiscal Agents:	
Local Agency Investment Fund	Not rated

Concentration of Credit Risk: The investment policy of the City of Merced contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. Investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent 5% or more of total City's investments are as follows:

		Percent of Total
Issuer	Fair Value	Investments
Federal National Mortgage Assn	\$ 24,116,591	12.22%
Federal Home Loan Mtg Corp	25,574,243	12.96%
U.S. Treasury Bill and Notes	31,272,988	15.85%
Federal Home Loan Bank	34,646,460	17.56%

Custodial Credit Risk: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of failure of the counter party (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the City's Investment Policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits:

#### D. Risks, Continued

The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the City). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure City deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

This Code states that collateral pledged in this manner shall have the effect of perfecting a security interest in such collateral superior to those of a general creditor. Thus, collateral for cash deposits is considered to be held in the City's name. The City's cash deposit was fully insured up to \$250,000 by the Federal Deposit Insurance Corporation. The remaining amount was collateralized with securities held by the pledging financial institutions in the City's name.

At June 30, 2020, the carrying amount of the City's cash (excluding cash equivalents) is \$3,841,521, which includes the general checking account and petty cash of \$4,923. The bank balance in the City's general checking was \$441,165, fully insured and collateralized with securities held by the pledging financial institutions in the City's name as discussed below. The difference between the bank balance and the carrying amount represents outstanding checks and deposits in transit. The remainder of the cash balance is cash held in an account used solely for the collection of interest and the value of matured investments.

#### E. Cash and Investments with Fiscal Agents

Funds deposited with fiscal agents can be held in cash or invested in various securities. The fiscal agents can invest in securities as outlined in trust agreements, provided the investments are within the limits imposed by state statutes. These investments include federal securities, investment agreements, interest-bearing demand or time deposits, commercial paper rated "AA-" or better by Moody's, and money market mutual funds which are rated in the highest category by Moody's. At June 30, 2020, cash and investments with fiscal agents totaled \$6,964,894.

#### 3. RECEIVABLES

# A. Government-Wide Financial Statements

At June 30, 2020, the Government-Wide Financial Statements reported the following receivables net of allowances for uncollectible amounts:

	Governmental		Bu	siness-Type	
	Activities		Activities		Total
Accounts receivable	\$	4,857,109	\$	6,395,321	\$ 11,252,430
Due from other governments		6,270,261		6,071,473	12,341,734
Interest receivable		847,765		741,664	1,589,429
Total	\$	11,975,135	\$	13,208,458	\$ 25,183,593

# 3. RECEIVABLES, Continued

# B. Fund Financial Statements

At June 30, 2020, the fund financial statements show the following receivables:

	Governmental		]	Enterprise		nternal	
		Funds		Funds		rice Funds	Total
Accounts receivable  Due from other governments  Interest receivable	\$	4,335,193 6,268,426 758,073	\$	6,395,321 6,071,473 741,664	\$	521,916 1,835 89,692	\$ 11,252,430 12,341,734 1,589,429
Total	\$	11,361,692	\$	13,208,458	\$	613,443	\$ 25,183,593

# Accounts Receivable

Accounts receivable consists of amounts accrued in the ordinary course of operations. The accounts receivable as of June 30, 2020 was as follows:

	Allowance for							
		Accounts		Doubtful	Net Accounts			
	]	Receivable		Accounts		Receivable		
Governmental Funds:								
General Fund	\$	2,993,948	\$	(1,968,110)	\$	1,025,838		
Streets and Signals Capital								
Project Fund		5,690		-		5,690

Total	\$	13,671,200	\$	(2,418,770)	\$	11,252,430		

# 3. RECEIVABLES, Continued

# B. Fund Financial Statements, Continued

# Due from other Governments

Due from other governments consists of amounts due from other governmental entities. The due from other governments as of June 30, 2020 was as follows:

Governmental Funds:	
General Fund	\$ 3,070,361
Housing	99,377
Measure C	1,376,188
Streets and Signals	492,386
Non-Major Funds	1,230,114
Total governmental funds	6,268,426
Enterprise Funds:	
Wastewater System	2,984,866
Water System	2,867,812
Refuse Collection System	5,870
Non-Major Funds	212,925
Total enterprise funds	 6,071,473
Internal Service Funds	 1,835
Total	\$ 12,341,734

# Interest Receivable

Interest receivable consisted of interest income from notes and investments pooled by the City as well as interest income to be received by fiscal agents from investments in their possession. Interest income is allocated to the funds at the end of the accounting period. The interest receivable as of June 30, 2020, was as follows:

#### Governmental Funds:

General Fund	\$ 77,246
Measure C	6,441
Housing Special Revenue Fund	5,100
Low and Moderate Income Housing	473,866
Streets and Signals	6,548
Non-Major Funds	188,872
Total governmental funds	758,073
Enterprise Funds:	
Wastewater System	325,269
Water System	370,211
Refuse Collection System	46,184
Total enterprise funds	741,664
Internal Services Fund	89,692
Total	\$ 1,589,429

# 4. UNEARNED REVENUE

# A. Government-Wide Financial Statements

Unearned revenues in the Government-Wide Financial Statements represent amounts for which revenues have not been earned. At June 30, 2020, unearned revenues in the Government-Wide Financial Statements were as follows:

	Governmental Activities		iness-Type activities	Total
Prepaid business license fees	\$	1,079,547	\$ -	\$ 1,079,547
Grants		54,989	-	54,989
Service charges received in advance		-	93,946	93,946
Developer credits		1,837,061	827,576	2,664,637
Total	\$	2,971,597	\$ 921,522	\$ 3,893,119

# B. Fund Financial Statements

At June 30, 2020, the following unearned revenues were recorded in the Fund Financial Statements because the revenues had not been earned:

Governmental Funds:	General 1		Housing			n-Major Funds		Total																				
Prepaid business license fees Grants Developer Credits	\$	1,026,498 - -	\$	- 54,989 -	\$ 1	53,049 - -,837,061		1,079,547 54,989 1,837,061																				
Total	\$	1,026,498	\$	54,989	\$ 1,890,110		\$ 1,890,110		\$ 1,890,110		\$ 1,890,110		\$ 1,890,110		\$ 1,890,110		\$ 1,890,110		\$ 1,890,110		\$ 1,890,110		\$ 1,890,110		\$ 1,890,110		\$ 2	2,971,597
Enterprise Funds:	Wastewater System		Water System		Refuse Collection System			Total																				
Service charges received in advance Developer credits	\$	33,233 827,576	\$	27,450 -	\$	33,263	\$	93,946 827,576																				

#### 5. INTERFUND TRANSACTIONS

# A. Fund Financial Statements

# Due To, Due From

At June 30, 2020, the City had the following short-term interfund receivables and payables:

		Gove	ernmental	Bus	iness-type		
Receivable Fund	Payable Fund		Activities		Activities		Total
General Fund Non-Major Governmental Funds	Non-Major Business-type Funds Non-Major Governmental Funds		158,213	\$	31,838	\$	31,838 158,213
Total		\$	158,213	\$	31,838	\$	190,051

Amounts shown as due to and from other funds represent interfund balances that arise in the normal course of operation and are expected to be repaid shortly after the end of the fiscal year.

#### Long-Term Advances

At June 30, 2020, the City had the following interfund long-term advances:

		Go	vernmental	Bus	siness-type	
Receivable Fund	Payable Fund		Activities	F	Activities	 Total
General Fund Water System	Non-Major Governmental Funds General Fund	\$	1,710,992 -	\$	- 185,873	\$ 1,710,992 185,873
Total		\$	1,710,992	\$	185,873	\$ 1,896,865

Advance from the General Fund to the Community Facility Districts Funds (non-major governmental funds) has an interest rate equal to the rate earned on the City's investment portfolio from the date of disbursements. Advance is to be repaid as funds become available from amounts received by the annual special tax.

Advance from the Restricted Water Wells Fund to General Fund of \$185,873 to repay the Department of Finance based on the approved Settlement Agreement related to the dissolution of the City of Merced Redevelopment Agency.

Total	\$ 9,479,109	\$ 9,528,396	\$ (3,332,960)	\$ 15,674,545	\$ 3,453,314	\$ 12,221,231

#### **Pension Obligation Bonds**

California Statewide Communities Development Authority Taxable Pension Obligation Bonds

On June 29, 2004, the California Statewide Communities Development Authority (CSCDA) issued bonds pursuant to the terms of a Trust Agreement dated June 29, 2004, by and between the CSCDA and Wells Fargo Bank (Trustee) as trustee to purchase taxable pension obligation bonds of participating counties and cities (Local Agencies). The obligations of each Local Agency are imposed by law. The total amount of the bonds issued was \$197,084,195. The City's obligation amounted to \$7,355,000.

The bond proceeds in the amount of \$7,138,378 were used by the City to prepay a portion of the unfunded actuarial accrued liability to the California Public Employees' Retirement System. The bonds are an unconditional obligation of the City payable from legally available funds.

Principal payments are due on June 1 of each year and interest payments ranging from 2.65% to 5.58% are due on June 1 and December 1 of each year. Local Agencies are obligated to deposit with the Trustee an amount equal to the annual debt service by August 1 of each year.

The annual debt service requirements for the pension obligation bonds are as follows:

Principal		Interest		Total

2024	 200,000	5,690	205,690
Total	\$ 800,000	\$ 90,330	\$ 890,330

# **Capital Lease**

On March 9, 2011, the City entered into a capital lease agreement with Bank of America to fund certain energy efficient, cost saving facility improvement measures and facility upgrades under which the related facility will become the property of the City when all terms of the lease agreement are met. The capital lease agreement of \$7,157,493 funded energy efficiency retrofitting of \$4,783,916 and capital improvements of \$2,373,577. As of June 30, 2020, the accumulated depreciation on the capital assets is \$721,962.

The capital lease agreement balance as of June 30, 2020:

		Pı	resent Value
	Stated	of	f Remaining
	Interest	Pa	yments as of

# **State Payable Settlement**

On August 6, 2019, the City of Merced finalized a Settlement Agreement with the California Department of Finance. The litigation, which had begun November 16, 2016, resolved was regarding the wind down of the Redevelopment Agency for the City of Merced (RDA) pursuant to Assembly Bill 26 and Assembly Bill 1484, collectively the "Dissolution Law."

The parties agreed that the City of Merced will remit \$9,528,395.83 to the Merced Designated Local Authority in eight installments with no interest. These payments are due on July 1 of each year with exception of the first-year payment, which was due on 10/1/2019.

The annual debt service requirements for the State Payable Settlement are as follows:

Year Ending June 30	]	Principal	Int	erest	 Total
2021	\$	2,000,000	\$	-	\$ 2,000,000

## 2012 Series Water and Wastewater Revenue Bonds

On June 19, 2012, the City issued 2012 Series in the amount of \$17,995,000 with an average interest rate of 3.665% to advance refund \$22,270,000 of outstanding 2005 CSCDA Water and Wastewater Bonds, \$6,555,000 and \$15,715,000 respectively, with an average interest rate of 5.223%.

The debt issuance resulted in an unamortized premium of \$1,808,425 that will be amortized over the life of the bonds. The unamortized premium balance at June 30, 2020 totals \$584,695.

#### 8. LONG-TERM DEBT, Continued

## A. Government-Wide Financial Statements, Continued

#### Revenue Bonds Payable, Continued

The bonds were secured by pledges of the Water and Wastewater Fund net revenues under the respective installment purchase agreements for each individual program participant. The indentures prescribe that the City will collect charges and fees for the use of Water and Wastewater which are reasonably fair and nondiscriminatory and which are estimated in each fiscal year to be at least sufficient to yield net revenues during such fiscal year equal to 125% of debt services for such fiscal year plus the amount necessary to restore the Reserve Fund, if any, to the respective amounts required to be on deposit therein in such fiscal year. For 2019-20 fiscal year, the debt coverage is 21.94 and 11.95 for the Water Fund and Wastewater Fund, respectively.

## 2012 Series Water and Wastewater Revenue Bonds, Continued

The City's obligation at issuance was \$5,455,000 for the Water Fund and \$12,540,000 for the Wastewater Fund. Principal payments are due on October 1 of each year and interest payments ranging from 2.0% to 5.0% are due on April 1 and October 1 of each year.

The annual debt service requirements for the Water Revenue Bonds are as follows:

Total	\$ 20,144,558	\$ 1,333,277	\$ 21,477,835

## B. Fund Financial Statements

The Governmental Fund Financial Statements do not present general government long-term debt. Consequently, long-term debt is shown as a reconciling item in the Reconciliation of the Governmental Funds Balance Sheet to the Government-Wide Statement of Net Position.

## C. Debt with No City Commitment

The long-term debt of the enterprise funds in the Proprietary Fund Financial Statements are the same as those shown in the business-type activities of the Government-Wide Financial Statements. Internal Service Funds' long-term debt is combined with governmental activities.

The following bond issues are not reported in the City's financial statements, because the City acts solely as an agent for the bondholders in collecting and forwarding the special assessments. Accordingly, no liability for these bonds has been recorded in the City's general purpose financial statements.

The City has issued bonds under the "Mello-Roos Community Facilities Act of 1982." These bonds are secured by real property within the district boundaries. Special taxes levied on these properties are used to pay the bonds.

<sup>\*</sup> The City's Cash Basis Fund is restricted per Section 1112 of the City of Merced Charter, which states that: "The city council shall maintain a revolving fund to be known as the "Cash basis fund," for the purpose of placing the payment of running expenses of the City on a cash basis. A reserve shall be built up in this fund from any available sources in an amount which the city council deems sufficient with which to meet all lawful demands against the City for the first five months, or other necessary period, of the succeeding fiscal year prior to the receipt of ad valorem tax revenues. Transfers may be made by the city council from such fund to any other fund or funds of such sum or sums as may be required for the purpose of placing such funds, as nearly as possible, on a cash basis. All moneys so transferred from the cash basis fund shall be returned thereto before the end of the fiscal year."

# Notes to Basic Financial Statements, Continued

## For the year ended June 30, 2020

#### 11. OTHER FUND DISCLOSURES

#### A. Deficit Balances

At June 30, 2020, the funds below had the following deficit fund balance or net position:

**Enterprise Funds:** 

Refuse Fund \$ (1,195,510)

The deficit net position was caused by the adjustments established through implementation of Governmental Accounting Standards Board Statement No. 68 and 75, which requires the net pension liability and net OPEB liability to be reported on the Statement of Net Position. The deficit will be eliminated by future charges for services.

Internal Service Funds:

#### Workers' Compensation Insurance Fund

\$ (6,469,189)

The deficit net position was caused by recording a liability according to the Governmental Accounting Standards Board Statement No. 10 that requires an accrual of claims liabilities based on estimates of the ultimate cost of claims, including future claim adjustment expenditures, that have been reported but not settled, and of claims that have been incurred but not yet reported (IBNR).

#### Liability Insurance Fund

\$ (288,011)

The deficit net position was caused by the adoption of Statement No 10 of the Governmental Accounting Standards Board, "Accounting and Financial Reporting for Risk Financing and Related Insurance", which established accounting and financial reporting standards for risk financing and insurance-related activities of state and local governmental entities. The Governmental Accounting Standards Board No. 10 requires an accrual of claims liabilities based on estimates of the ultimate cost of claims, including future claim adjustment expenditures, that have been reported but not settled, and of claims that have been incurred but not yet reported (IBNR). The recording of these estimated future claims and IBNR has caused the net position deficit balance.

#### Fleet Management Fund

\$ (678,057)

The deficit net position was caused by the adjustments established through implementation of Governmental Accounting Standards Board Statement No. 68, which requires net pension liability to be reported on the Statement of Net Position. The deficit will be eliminated by future charges for services.

#### Facility Maintenance Fund

\$ (3,573,302)

The deficit net position was caused by recording other postemployment benefits liability through the implementation of Governmental Accounting Standards Board Statement No. 75 and net pension liability. In addition, the City's capital lease agreement to fund certain energy cost saving facility improvement measures and facility upgrades cause a reduction in fund balance. The related facility will become property of the City when all terms of the lease agreement are met. The deficit balance will be eliminated by future charges for services and debt service payments related to the capital lease agreement.

# City of Merced Notes to Basic Financial Statements, Continued For the year ended June 30, 2020

#### 11. OTHER FUND DISCLOSURES, Continued

## A. Deficit Balances, Continued

Support Services Fund \$ (2,065,825)

The deficit net position was caused by the recording of other postemployment benefits liability through the implementation of Governmental Accounting Standards Board Statement No. 75 and the net pension liability. The deficit balance will be eliminated by future charges for services.

#### Public Works Administration Fund

\$ (2,930,588)

The deficit net position was caused by the recording of other postemployment benefits liability through the implementation of Governmental Accounting Standards Board Statement No. 75 and the net pension liability. The deficit will be eliminated by future charges for services.

#### 12. RISK MANAGEMENT

The City maintains internal service funds to account for the City's general liability and workers' compensation insurance. All unpaid claims that were probable liabilities that occurred prior to year-end and that were estimated based on actuarial studies or historical data were recorded in accordance with GASB Statement No. 10. As of June 30, 2020, claims for general liability and workers' compensation were \$2,221,545 and \$6,656,091 respectively.

The Liability Insurance Fund is used to account for all general liability claims against the City. The City is a member of the Central San Joaquin Valley Risk Management Authority (CSJVRMA), with a self-insured retention of \$100,000 for general liability and errors and omissions. The CSJVRMA retains the first \$1,000,000 of coverage above the \$100,000 self-insured retention. The CSJVRMA pays each claim from first dollar and then allocates the amount the city is responsible for and the amount which is shared by the pooled layers through the retrospective adjustment process. The CSJVRMA is a member of California Affiliated Risk Management Authorities (CARMA) for excess coverage over \$1 million up to \$54 million.

The Workers' Compensation Insurance Fund is used to account for all workers' compensation claims against the City. The fund provides for a maximum of \$350,000 for each claim. Local Agency Workers' Compensation Excess Joint Powers Authority (LAWCX) covers the layer above the member's retained limit up to \$5 million. LAWCX is a member of the Public Risk Innovation, Solutions, and Management (PRISM), formerly known as California State Association of Counties Excess Insurance Authority (CSAC EIA) who provides the excess coverage over the \$5 million.

#### 12. RISK MANAGEMENT, Continued

The changes in balance of claims liabilities during the past two years are as follows:

	General		Workers'
	Liability	Co	mpensation
Liability - June 30, 2018 Claims incurred Claims payments Changes to prior year estimates	\$ 1,077,168 423,967 (269,630)	\$	5,919,179 1,127,093 (2,300,525) 395,504
Liability - June 30, 2019	1,231,505		5,141,250
Claims incurred	1,602,166		2,787,080
Claims payments	(612,126)		(1,389,399)
Changes to prior year estimates	-		117,159
Liability - June 30, 2020	\$ 2,221,545	\$	6,656,091

#### 13. PENSION PLANS

# A. General Information about the Pension Plans

*Plan Descriptions* - All qualified permanent and probationary employees are eligible to participate in the City's Safety (Fire and Police) and Miscellaneous Plans, agent multiple-employer defined benefit pension plans administered by the California Public Employees' Retirement System (CalPERS), which acts as a common investment and administrative agent for participating public entities within the State of California. Benefit provisions under the Plans are established by State statute and City Resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding number of employees covered, benefit provisions, assumptions and membership information that can be found on the CalPERS website.

**Benefits Provided** – CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of service are eligible to retire at the retirement age with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 5 years of service. The basic death benefit is offered to all members. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

Summary of the Plans' reported financial statement balances are as follows:

		Pla	Plans			
	Miscellaneous			Safety		Total
	Plan		Plan			Plans
Deferred Outflows - Pension	\$	6,424,222	\$	9,490,329	\$	15,914,551
Net Pension Liability	4	6,673,009		42,264,569		88,937,578
Deferred Inflows - Pension		1,156,874		1,472,598		2,629,472
Pension Expense	;	8,946,104		7,904,210		16,850,314

The Plans' provisions and benefits in effect at June 30, 2020 are summarized as follows:

		Miscellaneous Plan	
	Existing plan		
	members hired	Existing plan members	New plan members
	before	hired after	hired after

# City of Merced Notes to Basic Financial Statements, Continued For the year ended June 30, 2020

#### 13. PENSION PLANS, Continued

# A. General Information about the Pension Plans, Continued

Employees Covered - As of the measurement date, the following employees were covered by the benefit terms for each Plan:

	Miscellaneous	Safety
	Plan	Plan
Inactive employees or beneficiaries currently receiving benefits	377	182
Inactive employees entitled to but not yet receiving benefits	215	113
Active employees	281	152
Total	873	447

Contributions - Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers are determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through CalPERS' annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. Employer contribution rates may change if plan contracts are amended. Payments made by the employer to satisfy contribution requirements that are identified by the pension plan terms as plan member contribution requirements are classified as plan member contributions.

#### B. Net Pension Liability

The City's net pension liability for each Plan is measured as the total pension liability, less the pension plan's fiduciary net position. The net pension liability of each of the Plans is measured as of June 30, 2019, using an annual actuarial valuation as of June 30, 2018 rolled forward to June 30, 2019 using standard update procedures. A summary of principal assumptions and methods used to determine the net pension liability is shown on the following page.

# City of Merced Notes to Basic Financial Statements, Continued For the year ended June 30, 2020

#### 13. PENSION PLANS, Continued

## B. Net Pension Liability, Continued

*Actuarial Assumptions* – The June 30, 2018 valuation was rolled forward to determine the June 30, 2019 total pension liability, based on the following actuarial methods and assumptions:

	Miscellaneous and Safety Plans
Actuarial Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:	
Discount Rate	7.15%
Inflation	2.75%
Salary Increases	Varies by Entry Age and Service
Mortality Rate Table (1)	Derived using CalPERS' membership data for all Funds
Post Retirement Benefit Increase	The lesser of contract COLA or 2.50% until Purchasing Power
	Protection Allowance floor on purchasing power applies,
	2.50% thereafter

(1) The mortality table used was developed based on CalPERS-specific data. The probabilities of mortality are based on the 2017 CalPERS Experience Study for the period from 1997 to 2015. Preretirement and Post-retirement mortality rates include 15 years of projected mortality improvement using 90% of Scale MP-2016 published by the Society of Actuaries. For more details on this table, please refer to the CalPERS Experience Study and Review of Actuarial Assumptions report from December 2017 that can be found on the CalPERS website.

*Discount Rate* – The discount rate used to measure the total pension liability was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments was determined using a building block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

## B. Net Pension Liability, Continued

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses. The expected real rates of return by asset class are as followed:

	Assumed	Real Return	Real Return
	asset	Years 1 -10	Years 11+
Asset Class (a)	allocation	(b)	(c)
Global equity	47.0%	4.90%	5.38%
Fixed income	19.0%	0.80%	2.27%
Inflation assets	6.0%	0.60%	1.39%
Private equity	12.0%	6.60%	6.63%
Real assets	14.0%	6.70%	10.57%
Liquidity	2.0%	-0.40%	-0.90%
Total	100.0%		

- (a) In the System's CAFR, Fixed Income is included in Global Debt Securities; Liquidity is included in Short-term Investments; Inflation Assets are included in both Global Equity Securities and Global Debt Securities.
- (b) An expected inflation of 2.5% used for this period.
- (c) An expected inflation of 3.0% used for this period.

# C. Changes in the Net Pension Liability

The following table shows the changes in the net pension liability recognized over the measurement period.

Miscellaneous Plan:			Incr	ease (Decrease)		
	Т	otal Pension	Plar	n Fiduciary Net		Net Pension
Beginning balance	\$	151,203,545	\$	106,970,186	\$	44,233,359

## C. Changes in the Net Pension Liability, Continued

Sensitivity of the Net Pension Liability to Changes in the Discount Rate – The following presents the net pension liability of each Plan as of the measurement date, calculated using the discount rate of 7.15% for each Plan, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower or 1 percentage point-higher than the current rate:

	Miscellaneous			Safety		Total
		Plan		Plan		Plans
		_				
1% decrease		6.15%		6.15%		6.15%
Net pension liability	\$	67,645,323	\$	65,852,372	\$	133,497,695
Current discount rate		7.15%		7.15%		7.15%
Net pension liability	\$	46,673,009	\$	42,264,569	\$	88,937,578
1% increase		8.15%		8.15%		8.15%
Net pension liability	\$	29,318,609	\$	22,900,660	\$	52,219,269

**Pension Plan Fiduciary Net Position** – Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

## D. Pension Expense and Deferred Outflows/Inflows of Resources Related to Pensions

For the year ended June 30, 2020, the City recognized pension expense of \$16,850,314 (\$8,946,104 and \$7,904,210 for Miscellaneous and Safety Plans, respectfully). At June 30, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Miscellaneous Plan			Safety Plan					Total		
	Deferred		Deferred		Deferred		Deferred		Deferred		
	Outflows of		Inflows of		Outflows of		Inflows of		Ou	tflows / Inflows	
	F	Resources	Resources		Resources		Resources			of Resources	
Pension contributions subsequent to measurement date	\$	4,535,059	\$		\$	5,077,238	\$		\$	9,612,297	
	Ф	4,333,039	Ф	-	Ф	3,077,236	Ф	-	Ф	9,612,297

Thereafter		_		-		

## 14. OTHER POSTEMPLOYMENT HEALTH CARE BENEFITS (OPEB)

#### A. General Information about the OPEB Plan

**Plan Description** – The City of Merced Retiree Healthcare Plan ("Plan") is an agent multiple-employer defined benefit healthcare plan. Benefit provisions are established and may be amended through agreements and Memorandums of Understanding (MOU) between the City, its management employees, and the unions representing City employees. The City's Retiree Healthcare Plan does not issue a standalone financial report.

The City has \$2,256,365 in the California Employers' Retiree Benefit Trust (CERBT) at the end of the fiscal year ending June 30, 2020. CERBT is a tax-qualified irrevocable trust administered by the California Public Employees' Retirement System (CalPERS) and organized under Internal Revenue Code Section 115 to pre-fund retiree healthcare and other postemployment benefits. Copies of CalPERS' financial report may be obtained from the CalPERS website at www.calpers.ca.gov or from CalPERS Headquarters at 400 Q Street, Sacramento, California, 95811.

Employees hired after December 31, 2002 in the Public Safety Bargaining Unit, December 31, 2003 in the AFSCME Bargaining Unit, December 31, 2004 in the MACE Bargaining Unit, and July 4, 2006 for Unrepresented Management Employees are not eligible for retirement healthcare benefits.

Eligible employees can participate in the City's Retiree Healthcare Plan if they retire directly from the City with at least 10 years of City service. There is no minimum service requirement if retirement is due to a service-connected disability. The City pays the retiree-only premium for medical coverage, up to a capped amount that varies by bargaining unit. Spouse and dependent coverage is available only until the retiree is deceased, and at their own expense. Medical coverage is with United Health Care. Dental and vision benefits are available to retirees, but at their own expense.

#### A. General Information about the OPEB Plan, Continued

*Employees Covered* – At June 30, 2019, the measurement date, the following number of participants were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	262
Inactive employees entitled to but not yet receiving benefits	-
Active employees	132
Total	394

**Contributions** - The contribution requirements of the Plan participants and City are established by and may be amended by the City pursuant to agreements with its management employees and the unions representing City employees. The plan is currently funded on a pay-as-you-go basis. No additional prefunding is currently planned.

#### B. Net OPEB Liability

The City's net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2018.

Actuarial Assumptions - The total OPEB liability at the June 30, 2019 measurement date was determined using the following assumptions, applied to all periods included in the measurement, unless otherwise specified:

Discount rate Based on Municipal Bond Rate 3.5%, Bond Buyer 20

Inflation 2.75%

Expected Long-Term Investment Rate of Return 3.50% at June 30, 2019
Salary Increases Aggregate - 3% annually

Merit - CalPERS 1997-2015 Experience Study

Mortality, Disability,

Termination, Retirement CalPERS 1997-2015 Experience Study

Mortality Improvement Scale Post-retirement mortality projected fully generational with Scale MP-2019

Medical Trend Non-Medicare - 7.25% for 2021, decreasing to an ultimate rate of 4.00% in 2076

Medicare - 6.3% for 2021, decreasing to an ultimate rate of 4.00% in 2076

Healthcare Participation for Future Retirees Medical coverage: 100%

Spouse coverage: 100% for those with more than single coverage Assumptions based on study of recent retiree experience

The actuarial assumptions at the June 30, 2019 measurement date were based on the results of an actuarial experience study for the period 1997 to 2015.

# B. Net OPEB Liability, Continued

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long-term
	Target Allocation	expected real rate
Asset Class	CERBT-Strategy 1	of return
Global equity	59.0%	4.82%
Fixed income	25.0%	1.47%
TIPS	5.0%	1.29%
Commodities	3.0%	0.84%
REITS	8.0%	3.76%
Total	100.0%	

*Discount Rate* – The discount rate used to measure the total OPEB liability was 3.5%. The projection of cash flows used to determine the discount rate assumed that the City contributions would be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees and beneficiaries. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

# C. Change in the Net OPEB Liability

The changes in the net OPEB liability for the Plan are as follows:

			Incre	ease (Decrease)			
	Т	Total OPEB	Plan	Fiduciary Net	Net OPEB		
		Liability		Position	Liability/(Asset)		
		(a)		(b)	(0	(a) = (a) - (b)

Net Changes		(1,033,000)		126,000		(1,159,000)	
Ending at June 30, 2020	\$	32,299,000	\$	2,180,000	\$	30,119,000	
(measurement date June, 30, 2019)							

(measurement date June, 30, 2019)

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate - the following presents the net OPEB liability of the City, as well as what the City's net OPEB liability would be if it were calculated using a discount rate that is 1 percentage-point lower or 1 percentage-point higher than the current discount rate:

	Discount R	ate -1%	Current	Discount	Disc	ount Rate +1%
	(2.5%	5)	Rate	(3.5%)		(4.5%)
Net OPEB Liability/(Asset)	\$ 33	,986,000	\$	30,119,000	\$	26,866,000

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rates - the following presents the net OPEB liability of the City, as well as what the City's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates:

	Healthcare Cost		Healthcare Cost				
	Trend Rate - 1%	Trend Rate - 1% Current Trend Tren					
Net OPEB Liability/(Asset)	\$ 28,583,000	\$ 30,119,000	\$ 31,897,000				

OPEB Plan Fiduciary Net Position – detailed information about the OPEB plan's fiduciary net position is available in the separately issued plan financial report.

# D. OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

For the fiscal year ended June 30, 2020, the City recognized OPEB expense of \$(415,000). At June 30, 2020, the City reported deferred outflows of resources and deferred inflows of resources to OPEB from the following sources:

	]	Deferred		Deferred	
	O	utflows of		Inflows of	
	R	Resources	Resources		
Differences between expected and actual experience	\$	-	\$	1,209,000	
Change in assumptions		511,000		366,000	
Net differences between projected and actual earnings on OPEB					
plan investments		-		30,000	
Employer contributions made subsequent to the measurement date		1,588,000		-	
Total	\$	2,099,000	\$	1,605,000	

The \$1,588,000 reported as deferred outflows of resources related to contributions subsequent to the June 30, 2019 measurement date will be recognized as a reduction of the net OPEB liability during the fiscal year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Measurement		Deferred
Period Ended	Out	flows/(Inflows)
June 30		of Resources
2021	\$	(846,000)
2022		(249,000)
2023		-
2024		1,000
2025		-
Thereafter		-
Total	\$	(1,094,000)

#### 15. COMMITMENTS AND CONTINGENT LIABILITIES

#### **Project Commitments**

Notes receivable

Beginning balance, July 1, 2019, as restated

As of June 30, 2020, the City had the following outstanding commitments that exceeded \$500,000:

	Outstanding				
Vendor Name		Amount			
Clark Bros, Inc	\$	2,114,189			
Merced Gateway Investors II, LP		1,051,244			
Hobbs Construction		793,702			
Phase 1 Construction		725,188			
Merced County Department of Public Works		625,230			
Ruckstell CA Sales, Inc		580,768			
Stantec Consulting Services, Inc		572,759			
Total	\$	6,463,080			

#### 16. POLLUTION REMEDIATION OBLIGATIONS

The City of Merced is aware of various contaminated sites throughout the City, which contain certain gasoline chemicals and other contaminates such as pesticides and solvents.

The State of California Regional Water Quality Control Board requires the City to expend \$250,000 annually on perchloroethylene (PCE) remediation efforts at certain dry cleaner sites. Costs for these activities are offset by insurance recoveries, and therefore no liability is reported on the City's Statement of Net Position.

#### 17. NET POSITION AND FUND BALANCE RESTATEMENT

During the fiscal year, the City recorded the following restatements to correct intergovernmental receivable recorded in prior year.

The following is a summary of the restatement of beginning balance:

Government-Wide Financial Statements  Governmental Activities:							
Beginning balance, July 1, 2019						\$	298,717,123
Intergovernment receivable							8,590
Interest receivable							466,110

REQUIRED SUPPLEMENTARY INFORMATION

This page intentionally left blank

#### 1. BUDGETARY CONTROL AND ACCOUNTING

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. The annual budget adopted by the City Council provides for the general operation of the City and is adopted by resolution in June of each year for all funds. The resolution sets a combined appropriation of the funds for the operation of the City.
- 2. The City Manager is authorized to transfer budgeted amounts between departments and line items to assure adequate and proper standards of service. Budgetary revisions, including supplemental appropriations, which increase appropriations in individual funds and transfers between funds, must be approved by the City Council. The budgetary level of control is at the fund level. The budgeted figures used in the financial statements are the final amended amounts.
- 3. The budget is formally integrated into the accounting system and employed as a management control device during the year for all funds.
- 4. Budgets for the governmental fund types are adopted and recorded on the modified basis of accounting on a basis consistent with GAAP. Budget appropriations lapse at the end of the fiscal year. Supplemental appropriations were adopted by the City Council and have been included in the schedules of revenues, expenditures, and changes in fund balance budget to actual.

Under Article XIIIB of the California Constitution (the Gann Spending Limitation Initiative), the City is restricted as to the amount of annual appropriations, and if certain proceeds of taxes exceed allowed appropriations, the excess must either be refunded to the State Controller or refunded to the taxpayers through revised tax rates or revised fee schedules. For the fiscal year ended June 30, 2020, proceeds of taxes did not exceed allowable appropriations.

The accompanying Budgetary Comparison Schedule of Revenues, Expenditures and Changes in Fund Balances - Budget and Actual for the General Fund and major special revenue funds present comparisons of the legally adopted budget with actual data on a basis consistent with GAAP.

#### **Encumbrances**

Under encumbrance accounting, purchase orders, contracts and other commitments for the expenditures of monies are recorded in order to reserve that portion of the applicable appropriation. Encumbrance accounting is employed as an extension of the formal budgetary process. Encumbrances outstanding at year-end are reported in the various categories of fund balance since they represent commitments, which will be honored during the subsequent year. Encumbrances do not represent expenditures or liabilities.

#### 1. BUDGETARY CONTROL AND ACCOUNTING, Continued

<u>Budgetary Comparison Schedule of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual General Fund (continued)</u>

Reconciliation of General Fund Budgetary Schedule to generally accepted accounting principles information presented in the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balance-General Fund.

The Parks and Community Services Fund has been combined with the General Fund for reporting purposes in compliance with GASB 54, since it no longer meets the definition of a Special Revenue Fund, due to lack of substantial inflows from restricted or committed revenue sources.

- (1) Historical information is required only for measurement periods for which GASB 68 is applicable.
- (2) Net of administrative expenses.

#### Notes to Schedule:

Benefit Changes: The figures above do not include any liability impact that may have resulted from plan changes that occurred after the June 20, 2018 valuation date. This applies for voluntary benefit changes as well as any offers of Two Years Additional Service Credit (a.k.a. Golden Handshakes).

Changes of Assumptions: In 2019, demographic assumptions and inflation rate were changed in accordance to the CalPERS Experience Study and Review of Actuarial Assumptions December 2018. There were no changes in the discount rate in 2018 and 2019. In 2017, the discount rate was reduced from 7.65% to 7.15%. In 2016, there were no changes. In 2015, amounts reported reflect an adjustment of the discount rate from 7.5% (net of administrative expense) to 7.65% (without a reduction for pension plan administrative expense.). In 2014, amounts reported were based on the 7.5% discount rate.

#### 5. SCHEDULE OF CONTRIBUTIONS - OPEB

	 2020	 2019	2018
Actuarially determined contribution  Contributions in relation to the actuarially	\$ 2,380,000	\$ 2,431,000	\$ 2,370,000
determined contribution	(1,588,000)	(1,617,000)	(1,584,000)
Contribution deficiency (excess)	792,000	814,000	786,000
Covered-employee payroll	\$ 10,836,000	\$ 11,970,000	\$ 11,909,000
Contributions as a percentage of covered- employee payroll	14.65%	13.51%	13.30%

Fiscal year 2018 was the 1st year of implementation.

#### Notes to schedule:

Actuarial methods and assumptions used to set the actuarially determined contributions for Fiscal Year 2019 were as of the June 30, 2018 measurement date.

#### Methods and assumptions used to determine contributions:

Valuation date June 30, 2017

Actuarial cost method Entry age, level percentage of payroll

Amortization method Level dollar, closed period. 30 years for initial UAL and 15 years for subsequent changes.

Remaining amortization period Average remaining period 24.8 years

Asset valuation method Investment gains and losses spread over 5-year rolling period

Discount Rate 3.75%
General Inflation 2.75%

Medical Trend Non-Medicare - 7.5% for 2020, decreasing to an ultimate rate of 4.0% in 2076

Medicare - 6.5% for 2020, decreasing to an ultimate rate of 4.0% in 2076

Mortality CalPERS 1997-2011 experience study

Mortality Improvement Post-retirement mortality projected fully generational with Scale MP-2016
