

Types of refuse collection service and containers:

1. Curbside Service and,
2. Premium/Disabled/Senior Service
 - City supplies 64-gallon container, gray in color.
 - City supplies 64-gallon recycling container, blue in color.
 - City supplies 90-gallon green waste container, green in color.
3. Rear Loader Service
 - City supplies 1 or 1 1/2 cubic yard container as appropriate to customer service needs.
4. Front End Loader service
 - City supplies 2, 3, 4, 6 or 8 cubic yard container, as appropriate to customer service needs.
5. Roll off Service
 - City supplies 20 or 30-yard container for construction and major commercial business. Compactor style container shall be provided by the customer.
6. Special pickup
 - Only when equipment and personnel are available and upon special request.

City selects, within physical and legal constraints, the type of collection service to be furnished. Customer input will be considered when service choice is made. Use habits can significantly affect needed capacity.

Guidelines for estimating number of containers per use:

<u>Type of Use</u>	<u>Number of Containers</u>
Multifamily (Studio & 1 BR)	3 units per 1 yd. container 4.5 units per 1 1/2 yd. container
Multifamily (2 or more BR)	2.5 units per 1 yd. container 3.5 units per 1 1/2 yd. container
Commercial (Office/Mercantile)	1 unit/cubic yard container When appropriate, and only with approval of the City of Merced Solid Waste Division, one container may be shared by multiple commercial units.
Industrial	as needed by request
Construction	as needed by request

Rules covering the handling of refuse and the rates and charges for the service are established by Merced Municipal Code Chapter 8.04 entitled Garbage and Rubbish.

The access envelope, loading envelope and the areas within the enclosure shall not be used for dumping of materials or storage of any kind. The inside of the refuse container itself shall be the only location for placement or discard of materials.
